

REPAIR SERVICES

Our highly skilled and motivated staff extends the economic life of your equipment. So far, we have worked on over 4000 different models made by 1100 different manufacturers. If we haven't seen it before - we will find a way!

We do

- Bench repairs
- On site repairs
- Regular hours
- Emergency after hours
- Up front quotes for repair/maintenance including calibration
- Component level trouble shooting
- Manage outsourcing when needed
- EPROM programming
- Preventative maintenance

Our shop rates are competitive and as we find a particular model becomes high volume, we develop a standard repair practice and stock the appropriate components for even faster turnaround.
